

Black and Jewish Leaders Unite to Combat antisemitism and Protect Jewish Identity

U.S Leaders of various faiths and backgrounds continue their strong support of protecting jewish Identity and fight against antisemitism. U.S. Representative Richie Torres, an Afro-Latino born and raised in the Bronx (15th Congressional District), is dedicated to dismantle anti-semitism and continue his unwavering support for Israel. One of his key initiatives focuses on addressing anti-Semitism on college campuses nationwide.

In a letter to U.S. Education Secretary Miguel Cardona, Rep. Torres is urging the department to clarify its plans to combat the growing issue of anti-Semitism on campuses. He is also asking how the department is collaborating with other federal agencies to ensure the safety of Jewish and all students, and seeking details on the capacity of the Office for Civil Rights to handle complaints. Additionally, he inquires whether the office requires additional resources to effectively manage and address these issues.
